BATTING/SCORING

1. Batting order can consist of **7 males and 4 females** or **7 males and 5 females** with a minimum of 3 females. ***We DO NOT use the SPN unlimited roster rule.*** a) You can play with 5 males and 3 females with an auto out in place of the 4th female. However if you have a 6th male you must play him and still take an auto out in place of the missing girl b) 7th male and 5th female are an extra hitter and can rotate in and out of field at any time but must remain in the same order of the batting lineup throughout the game while playing. c) You cannot use a 7th batter (male extra hitter) or 5th batter (female extra hitter) if any male or female batter in the lineup is taken from a team competing in our league. Team only bats 6 males or 4 females in this case. *The extra hitter was put in to help with teams that have extra players on their team to get them into the game more often and not to try and poach a player from another team to help bolster your line up.* d) **Extra female (EH)** batter can be used as well, rules that apply to extra male batter must be met in order to have an extra female batter.
2. If you make a sub in the lineup the sub must play field first before batting. a) If you have to reinsert a player who has been subbed out, the player must go back into their original batting order and the sub that came in will go to the new batting spot in the order. b) A player may be subbed back into the game.
3. Ball hit off the board and goes into fair territory is considered a fair ball in play and has the same rules as a regular fair ball in play.
4. Commitment line at home so the batter does not touch the plate at home he crosses the line. a) If the batter touches the plate they are out. b) No tagging at home or sliding at home after the commitment line. d) **Catcher/Fielder just has to touch home plate or board.** Runner's foot must touch the ground after line to be considered safe. e) No more than one fielding player at home on any play at home, you can have cover but they must be away from the actual play backing up the play.
5. No sliding at first or home
6. No bunting
7. **Maximum 5 runs per inning**
8. All counts are 4 balls and 3 strikes. a) 4 balls equals a walk b) four consecutive balls to a male batter with a female batter following them is a double. c) Batters can ask to be pitched to during an intentional walk. d) 3 strikes foul, 3 strikes on the board or 3 strikes swinging is an out.
9. Any foul tip caught no matter the height is an out.
10. Ladies can ask to use either ball to hit with.
11. If you need to have a runner for a batter, must get to 1st then last out or the person furthest in batting order can run. Male for male, female for female
12. Batters cannot switch sides in the same at-bat.

13. No lead offs on any base, if foot comes off bag before contact with the ball is made runner is out.
14. On a play at first base (batter runs past first) the runner must have intent on going to 2nd to be tagged out. Players can turn toward 2nd and be safe as long as there was no intent to go to 2nd.
15. Batter's box will be marked 2' in front of the plate. If it has been determined that contact with the ball has been in front of the 2' marking the batter is out. Hitting the plate before the ball batter is out, foot contact with either the board or the plate while making contact with the ball the batter is out. Will be looked at again at mid-season.
16. Pitched ball that is hit off of batter is a foul ball

FIELDING/PITCHING

1. **Infield fly** applies with runners on first second or first second third with less than two out on a fair ball that an infielder can make a routine play on. Base runners advance at our risk
2. Any ball hit that strikes a base runner, in fair territory, the base runner is out and the play is dead. If a thrown ball strikes a player the play is still live and base runners are at their own risk running including the runner hit by the fielder.
3. Any contact or obstruction from a fielder on a base runner running within the baseline is considered an extra base and the runner is not out. **a)** The runner will be out if they obstruct a fielder making a play on a routine hit ball.
4. Any ball leaving the field of play on a throw by a fielder, the base runner gets the base they were running to as well as one more. If the base runner was running back to a bag they get the next base.
5. ***Pitch arch is 6 feet minimum to unlimited height***
6. Pitchers must pitch from 55', (pitchers rubber or marking may be placed on the field if necessary). Pitchers have the option of using up to a 5' range toward 1st or 3rd in conjunction with the rubber or marking.
